PROFESSIONAL SUMMARY

Versatile professional with 8+ years of combined experience across customer service, vendor management, IT support, and frontend software development. Proven ability to communicate effectively with clients and stakeholders, resolve complex issues, manage technical systems, and deliver high-quality digital solutions. Strong foundation in both people-facing roles and technical development, with hands-on experience serving clients across Nigerian and international markets.

KEY SKILLS

- Customer Service and Issue Resolution
- Vendor Onboarding and Relationship Management
- Technical Support and IT Administration
- Network Design, Configuration and Maintenance
- Effective Communication across Time Zones
- Escalation Handling and Root Cause Analysis
- Frontend Development (React, Next.js, TypeScript)
- REST API Integration and Web Application Development
- Data Management, Security and Encryption
- SEO, Performance Optimization and Accessibility
- Git, GitHub, CI/CD, Agile/Scrum Workflows
- AI Tools: Claude Code, GitHub Copilot, ChatGPT

WORK EXPERIENCE

Senior Frontend Developer

Apr 2025 – Present

TOTUM LLC | Remote

- Designed, developed, and maintained responsive web applications using React, Next.js, TypeScript, and Tailwind CSS, serving a growing customer base.
- Integrated frontend applications with REST APIs and third-party services, including payment gateways, ensuring seamless data communication.
- Implemented real-time features using WebSockets and built reusable UI component libraries, reducing development time by 25%.
- Worked within an AWS-hosted production infrastructure and contributed to GitHub Actions CI/CD pipelines.
- Conducted code reviews and mentored junior developers on TypeScript patterns, component design, and best practices.
- Collaborated with product managers, designers, and backend engineers in an Agile/Scrum remote environment.

Web Developer and Technical Trainer

Apr 2023 – Sep 2025

E-Tech Hub | Lagos, Nigeria

- Built custom websites and web applications for multiple clients using React, JavaScript, Node.js, and PostgreSQL, growing client traffic by 20 to 30 percent.
- Integrated REST APIs and third-party services across client projects, managing data flows and resolving integration issues.
- Automated recurring workflows using JavaScript and Python scripts, saving over 10 engineering hours per week.
- Designed and delivered web development training programs for over 50 learners, improving project completion rates by 40 percent.
- Optimised UI components for performance, achieving 30 percent faster page load times across client sites.

Vendor Experience Agent

2023 – December 2025

Jumia Nigeria | Lagos, Nigeria

- Provided timely, professional communication to vendors via email, chat, and phone, maintaining high satisfaction levels.
- Guided new vendors through the onboarding process, ensuring clear understanding of platform policies and available tools.

- Resolved escalated vendor issues including technical problems, payment disputes, and order concerns in collaboration with internal teams.
- Gathered and analysed vendor feedback to identify recurring challenges and recommend process improvements.
- Ensured vendors adhered to company policies, terms, and conditions, maintaining compliance across the vendor base.
- Built and maintained strong vendor relationships to encourage long-term collaboration and platform loyalty.

Data Management Specialist

2022 – 2023

Strategic Outsourcing Limited (Polaris Bank) | Lagos, Nigeria

- Managed secure storage and retrieval of large volumes of electronic data, implementing classification systems, indexing, and metadata tagging.
- Implemented advanced search functionalities enabling users to locate specific records quickly and efficiently.
- Protected data from unauthorised access through encryption and secure authentication processes, ensuring compliance with data security standards.
- Collaborated with internal teams to resolve data-related challenges and improve data management workflows.

Freelance Web Developer

Feb 2021 – Present

Self-Employed | Remote

- Delivered responsive web applications, landing pages, and REST API integrations for clients across multiple industries.
- Managed version control, web hosting, and cloud deployment across AWS and Vercel environments.
- Used Python for backend scripting, data manipulation, and workflow automation across personal and client projects.

IT Technician

2017 – 2018

One Touch Computer Center | Lagos, Nigeria

- Installed, configured, and maintained computer systems running Windows, Linux, and UNIX operating environments.
- Designed, configured, and secured local area networks, managing infrastructure and ensuring reliable connectivity.
- Provided technical support and troubleshooting for hardware and software issues across the organisation.

EDUCATION

B.Sc. Computer Science

2022

Estam Formation University, Benin Republic | GPA: 3.26 / 4.0 (Upper Second Class)
